SUB-NORMAL SCHOLARS.

In view of the proposal to establish a psychological clinic in connection with the University of Adelaide, it is interesting to read this report from a South African newspaper: "The Rand School Board has been requested to ask the Reformed Church authorities at Benoni to bring back the normalcy of soul for the accommodation and education of about a dozen children whose mental condition was abnormal but normal by comparison with the average school." The Board also stated that the Rev. R. T. Paget and Mr. W. H. Haines, who are "the brains" of the Board, were unanimous in their belief that the proposal was a laudable one.

MR. JOHN BISHOP.

Mr. John Bishop, a brilliant young South Australian pianist, has been awarded the Elder Overseas Scholarship. He will leave early in July for London to take up his studies at the Royal College of Music. His committee has been informed that a number of young musicians have expressed their desire to study under the Elder Overseas Scholarship, which will be open to students of any age. The scholarship is worth £100 for the first year and £200 for the second year.

IN ENGLAND.

INSPECTING WELSH SCHOOLS.

Mr. McCoy, the South Australian Director of Education, was in England to inspect the London schools. He was particularly interested in the agricultural high schools at Banff and Inverness, and visited Mr. Richard Wilson, who gave him a very detailed report on the schools. He also visited the University of London, where he was warmly received by the vice-chancellor, who gave him a very detailed report on the schools. He then proceeded to the University of Cambridge, where he was very impressed by the teaching staff and the facilities available. He then returned to London, where he was entertained by the Lord Mayor. He was very impressed by the city and its history, and was very happy to be back in England.
