ELDER CONSERVATORY.

A SUCCESSFUL RECITAL.

The pianists and vocalists of the Adelaide University recently presented a recital, given on Monday evening in the Music Hall. The programme was divided into two parts, and the pianists and vocalists were selected from among the students of the University.

The recital was a great success, and the audience was well satisfied with the performance. The pianists and vocalists displayed a high degree of skill and technique, and their renditions of the works were received with enthusiastic applause.

The recital was well attended, and the audience was composed of both students and residents of the town.

The pianists and vocalists will continue to give recitals throughout the year, and the University is extending its musical activities.

Lectures by Professor MacKail.

A slight variation has been made in the titles of the lectures to be delivered in Adelaide on June 5 and 7, by Professor MacKail, the late Professor of Poetry at Oxford. The lectures will deal with the relation of poetry to science and democracy.

The lectures will be delivered in the Broughgam House and in the University of Adelaide. The course will be delivered in a three-week period, from June 5 to 11.

Gone is the day when poets could be content with the poetic. Today, poetry is an integral part of the world of science and democracy. The lectures will deal with the relation of poetry to science and democracy, and will be delivered in a three-week period, from June 5 to 11.
