RISING PRICES.

The increase in the cost of living has been due to the increased demand for goods, which has been caused by the war. The prices of foodstuffs have risen considerably, and the cost of living has increased accordingly. The government has taken steps to control the prices of essential goods, and has imposed restrictions on the importation of non-essential goods. 

INTEREST RATES.

The Bank of England has raised the interest rates to 5% in order to control the inflationary trend. This has had a significant impact on the economy, as it has made borrowing more expensive and has reduced the demand for credit.
