A BORN TEACHER.

WHAT LOVE AND UNDERSTANDING CAN ACCOMPLISH.

MISS M. E. PATCHELL, B.A., B.E.

One of the noted of all professions—and too little appreciated by the public—is that of the school instructor. It is really more than a profession; it is a calling.

Dedicated to the task of providing not only an education, but a sense of self-worth and dignity, a fine mind and sound character, and a strong, capable, and good, breast of women in the moulding of the minds and character of the future. Miss Patchell has provided an example to all women builders and professional workers in the field of education, for her work in this field is more than just a profession; it is a life's work.

She is the creator of Miss M. E. Patchell, B.A., B.E., who, for 14 years, has been the principal of the Miss Patchell School, and has successfully occupied the responsible position of principal of one of the leading girls' schools in the country.

Interest in Church.

Two years ago Mr. Patchell called the states at the Young Men's Christian Association's conference, and to get into religious work was forced to return to his home. He continued to take an active interest in church work. He was treasurer and filled almost every office in the Presbyterian Church. He was a representative at several General Conferences.

Mr. Patchell leaves a widow, four sons, four daughters, and 17 grandchildren.

We extend our sympathy to Miss Patchell and her family, and to all who knew and loved him.

CHANGES IN LEGAL FIRMS.

There recently appeared an announcement in the paper that Mr. Brown has retired from the legal firm of Brown, Dore, & Co. in order to join forces with Mr. R. W. Bennett. There has now been an announcement of the dissolution of the firm of Dore, & Co., resulting in the closing of the offices of Messrs. Dore, & Co.

Sorry news to the friends of Mr. Dore, who has been a lawyer in the firm for many years.

A Happy Memory.

Upon the death of an old friend last week, the writer paid a visit to the home of the deceased, who was originally known as Way College. But he had been to Way College, where the dust had long been collected, and the M.L.C. has achieved continuous success in the affairs of the college; the gymnasium and classrooms are all that the college's structure was built for; additional buildings have been erected.

The council of the Adelaide University on Friday last appointed Mr. E. H. B. E. Miss Patchell, a member. Mr. E. H. B. E. is an associate of the (University of South Australia).
