Chemistry.

First Class:—W. G. B. Thompson; H. A. H. Marston.

Botany.

First Class:—W. B. H. Bristow; H. G. G. A. Betts.

Second Class:—H. G. G. A. Betts; W. B. H. Bristow.

Inspiration of Poetry.

'The real driving force in the teaching of poetry is the love of poetry. The body mentioned above will have to be read aloud to be fully appreciated, but the spirit of it can be communicated to the pupil by the teacher. It is an excellent substitute for reading poetry aloud, and the pupil would be more probably spent in learning the language of poetry than in learning the language of the poet.'
