THE EDUCATION PROBLEM.

W.E.A. Want Increased Subsidy.

Government Proposals Outlined.

Replying to a deputation from the Workers Educational Association on Thursday afternoon, the Minister of Education (Mr. B. H. V. Nicolson) made the following statement:

"The Government has decided to grant an increased subsidy to the W.E.A. The proposals outlined by the Minister will enable the W.E.A. to extend its activities. The subsidy will be used to open new branches and to extend existing ones. The government will provide the necessary funds to enable the W.E.A. to continue its work.

The proposals of the government were as follows:

1. An increased subsidy should be granted to the W.E.A.
2. The government will provide the necessary funds to enable the W.E.A. to continue its work.
3. The government will support the W.E.A. in its efforts to open new branches and to extend existing ones.

The government believes that education is the key to societal progress and that the W.E.A. plays a crucial role in achieving this goal. The government is committed to supporting the W.E.A. in its mission to provide education to all.

The government is proud of the contributions made by the W.E.A. and is committed to providing the necessary support to ensure its continued success.

Mr. Nicolson ended by thanking the W.E.A. for its hard work and dedication to education and encouraging all to participate in the W.E.A.'s activities.

The government's proposals were greeted with enthusiasm by the W.E.A. and were seen as a significant step forward in the provision of education to the masses.
