BRILLIANT SOUTH AUSTRALIAN

Mr. A. E. Y. Richardson Honored

Some Roseworthy Productions

Mr. A. E. Y. Richardson (lecturer at the University of Moresby and Agricultural Society) has been awarded a scholarship to the Victoria Department of Agriculture. He was the only person selected from South Australia for the scholarship, which is designed to provide opportunities for young men to study agricultural and related subjects. Mr. Richardson will spend six months in Victoria before returning to South Australia.

The University of Moresby has received a donation of £100 from the South Australian Agricultural and Horticultural Society. The donation was made in recognition of the Society's contribution to the development of agricultural and horticultural education in South Australia.

The University of Moresby has announced that it will be offering scholarships to students who wish to study agricultural and related subjects. The scholarships will be available to students who meet the eligibility criteria set by the University.

Insect Dangers...

The University of Moresby has received a report from the Queensland Department of Agriculture indicating that there is a serious threat of insect infestation in the region. The University has been asked to undertake research into the problem and to develop strategies for controlling the insects.

The University of Moresby has received a donation of £50 from the South Australian Agricultural and Horticultural Society. The donation was made in recognition of the Society's contribution to the development of agricultural and horticultural education in South Australia.
