TO PREVENT LITIGATION

Proposed Conciliation Court

Interesting Scheme.

The Daily Constitution on Law

in June proposed the creation

of a Conciliation Court to

prevent litigation.

The court would be

set up in the same

manner as the Small

Claims Court.

The court would

be staffed by

lawyers and

judges.

The purpose of

the court would

be to prevent

litigation by

mediating disputes.

The court would

hear cases involving

property disputes,

contract disputes,

and other civil

matters.

The court

would be

open to

all residents

of the city.

The court

would be

funded

by

fees

from

cases.

The court

would

be

part of

the

city's
court

system.

The court

would

be

in

charge

of

mediating

disputes,

settling

cases,

and

ensuring

justice.

The court

would

be

an

independent

body,

not

subject

to

political

influence.

The court

would

be

a

valuable

resource

for

residents

of

the

city.

The court

would

be

a

step

towards

preventing

litigation.

The court

would

be

an

important

part

of

the

city's

justice

system.
