A Wonderful Institution.

Sir James Barrett (it well-known Melbourne surgeon who is taking Atlantic crossing this week) has delivered an interesting and thoughtful lecture on the Rockefeller Foundation in the Princes of Wales lecture room, Melbourne University, on Thursday evening. It included matters of interest to all Australians.

Sir James Barrett said the Rockefeller Foundation was organized on the year 1913, under the presidency of Dr. John D. Rockefeller, sen. The aim of the Foundation is to distribute funds for research and education in the important diseases of the world. The Foundation is managed by a board of trustees, who are elected every three years. It is managed by a committee, who employ a staff of scientific and administrative experts. The Foundation has a large endowment, and is able to give generous grants to worthy projects.
