Lecture by Dr. C. W. Catalogue of the English Folk Songs

By Harry Thompson

In the good old days when knights held court and serfs were unfree, Negroes and women were not independent of the men who owned them. In those days, the life of a serf was governed by the law of the manor, and the serf was not allowed to leave his estate unless he was given permission by his lord. The serf was also subject to the demands of his lord, and was required to work the land and to provide food and clothing for his lord.

Science and Industry

Science and industry have joined forces to produce an ever greater diversity of forms. And the meaning of such diversity is that of the desire for co-operation. Science has become the servant of man, but man is continuously woollen and soon that she may continue to confer her favor.

Such remarks are prompted by the recently reorganized Institute. Science and industry have joined forces to produce an ever greater diversity of forms. And the meaning of such diversity is that of the desire for co-operation. Science has become the servant of man, but man is continuously woollen and soon that she may continue to confer her favor.

The Heo L. H. Mill Hospital was opened last month to the public. The hospital was designed to be a center for the treatment of all forms of disease and injury. It was opened to the public on December 1st, and was immediately successful. The hospital has been well received by the local community, and has been the subject of much praise.

"It has been customary to destroy the youth of the town," said Mr. Pettigrew, "but we have found that the best way to educate the youth is to allow them to lead as they please."

The morning work consists of a study of the various species of trees and their uses, the functions of the various parts of the trees, and the effects of fires on the land. This work is supplemented by practical instruction, and by the study of the various types of trees and their uses.

Trees are made to the ax to gain as much as possible. But now the ax is laid out and the felling of trees begins. The felling of trees is a very important part of the work, and it is done carefully and systematically. Mr. W. G. C. has specially trained for the work of felling trees, and he is well equipped for the job.

The forestry course at the University of South Australia is now in full swing, and there are several students enrolled. The course is conducted by Mr. W. G. C., who has many years of experience in the forestry field.

The late Miss Dorothy Kentish

The late Miss Dorothy Kentish, a young woman of outstanding ability and talent, died suddenly on the 16th of the month. Miss Kentish was a student at the University of South Australia, and was a member of the Y.W.C.A. She was a popular figure on the campus, and was well known for her intelligence and cheerfulness.

Miss Kentish was a native of South Australia, and was the daughter of Mr. and Mrs. A. G. Kentish. She was educated at the University of South Australia, and was a member of the Y.W.C.A. She was a popular figure on the campus, and was well known for her intelligence and cheerfulness.
