

Gifted Musician

As a teacher of singing, organist, and choir-master, no one is better known in Adelaide than Mr. H. Winsloe Hall. His earliest musical training was gained from his mother, and from Mr. Charles Sangster, the organist of St. John's Anglican Cathedral, Hongkong, where as a boy he was for four and a half years chief soprano soloist.

Educated later at Lancing College, Sussex, and Magdalen College, Oxford, he held the Undergraduate Tenor Scholarship at the latter college, which is famous for its musical association with Sir John Stainer, Sir Walter Parratt, and others. He then studied for four years at the Royal College of Music, and took the principal tenor role in the annual college opera performance, "Le Roi l'a dit" (Debussy) at the Prince of Wales Theatre, London, and at a command performance at Windsor Castle. He also took the role of "David" in Wagner's famous quintet from "Die Meistersinger" at the State concert at Buckingham Palace, being associated on this occasion with Madame Albani, Edward Lloyd, and other prominent singers.

In 1910 Mr. Hall was appointed teacher of singing at the Elder Conservatorium, succeeding Miss Guli Hack. He also took over and still holds the conductorship of the Ladies' Part-Singing Class. From 1915 to 1918 he conducted the Adelaide Orchestra, which succeeded the Heinicke Orchestra, and gave some 20 concerts, many new works being included. Last year he was appointed conductor of the Adelaide Glee Club, which had just completed its fortieth season.

Mr. Hall has held several important organizations, but his keenest interests are in the realm of vocal music. Among his past students are numbered Misses Muriel Day, Vera Thrush, Charlotte Krivell, and Messrs. Harold Gard and Richard Watson.

Mr. H. Winsloe Hall

ADELAIDE HOSPITAL.

NEW MEDICAL SUPERINTENDENT.

Dr. J. G. Hislop, M.B., B.S., M.R.C.P., of Perth, was by the Executive Council on Wednesday appointed medical superintendent of the Adelaide Hospital, in place of Dr. Turner, who resigned recently.

The new superintendent is 29 years of age. In 1918 he graduated M.B. and Ch.B. at the University of Melbourne, and in April, 1922, was admitted to a membership of the Royal College of Physicians of London. He enlisted for war service in 1915, but being a medical student was directed to complete his medical course. He undertook to enlist again on graduation, which stage he reached just after the Armistice. After his graduation he was employed by the Victorian Board of Health in connection with the influenza epidemic, for three months, and in March, 1919, he was appointed resident medical officer to the Broadmeadows Influenza Hospital, where he remained until August of that year. The influenza epidemic having then occurred in Tasmania he was with Dr. Camm sent by the Commonwealth Quarantine and Health Department to take charge of the outbreak there, and acted as medical superintendent of the Hobart Influenza Hospital, and later as deputy to the Chief Health Officer reporting on epidemic conditions on the north-west coast of Tasmania. From February to December, 1920, Dr. Hislop was resident medical officer at the Children's Hospital at Perth, Western Australia. The committee of Manchester Royal Infirmary during that interval applied for two Australian graduates, to be chosen by the Universities, to act as senior house surgeon and senior house physician respectively, and Dr. Hislop was selected for the latter position, which he held for ten months under Dr. F. Craven Moore and Dr. Donald E. Coco. At the request of the board he then accepted a post as medical registrar of the teaching staff, but after he had secured the diploma of M.R.C.P. he resigned the position in the infirmary to take up that of house physician at the Brompton Hospital for Consumption and Diseases of the Chest, London, and assistant physician to the South Kensington Dispensary. After spending six months there he became an assistant at the Brompton Sanatorium at Frimley, Surrey. He next engaged in post-graduate work on the Continent, subsequently returning to Australia, and April last received the appointment of chief resident medical officer (superintendent) of the Perth Children's Hospital, Western Australia, which he still holds.

HELPING YOUNG GIRLS

Miss Piper Takes Up Duties

WORK FULL OF INTEREST

Miss Flora Piper, the newly appointed secretary of the Girls' Department of the Young Women's Christian Association, began her duties this morning. Miss Piper, who is a daughter of the Rev. E. J. Piper, of Highgate, is full of youth and enthusiasm. Being a girl she can understand the hopes, aims, and needs of those who are now under her care.

She was a pupil of the Methodist Ladies' College, Wayville, and had a brilliant career there. She was fourth in the honors list in the Junior Public examination at the Adelaide University. She gained five credits in the Senior Public, and in the Higher Public she gained a bursary that provided a four years' Arts course at the Adelaide Uni-

Miss Flora Piper, B.A.

who began her duties today as secretary of the Girls' Department of the Young Women's Christian Association.

THE LAW SOCIETY.

The annual meeting of the Law Society of South Australia, Incorporated, was held on February 27. There was a good attendance of members. By courtesy of the South Australian Football League the meeting was held in the league's room. The President (Mr. A. W. Piper, K.C.) was in the chair, and moved the adoption of the report of the council and statement of receipts and expenditure. As a result of the election which then took place the following are the office bearers for the year: President, Mr. A. W. Piper, K.C.; Vice-President, Mr. P. E. Johnstone; Hon. Treasurer, Mr. C. L. Jessop; Council, the President, Vice-President, Hon. Treasurer, and the Attorney-General (ex officio), Messrs. F. Villeneuve Smith, K.C., T. S. O'Halloran, K.C., T. C. Holland, C. W. Hayward, R. W. Bennett, G. McEwin, H. T. Ward, C. A. Edmunds, H. Thomson, and H. Mayo; Hon. Auditors, Messrs. S. H. Skipper and N. J. Hargrave; Hon. Secretary, Mr. G. S. Reed.

Mr. C. S. Piper, B.Sc., who has been appointed to the important position of assistant chemist of the Waite Institute, had a creditable record at the Adelaide University. About two years ago he was chosen as assistant teacher and chemist at the Roseworthy Agricultural College, where he did very successful work. His present appointment is the result of a recommendation from members of the professorial staff at the University.

AGRICULTURAL RESEARCH

Valuable Gifts to University

Professor Richardson (Director of the Waite Agricultural Research Institute) reported to the Council of the University yesterday that during the past few weeks a number of implement firms had shown their interest in the Institute by generously offering to supply free of cost certain implements required for field experiments.

The following firms have given implements:—H. V. McKay Company, Sunshine, Victoria, a spring-tooth fertilizer and a grain and fertilizer drill; Clutterbuck Bros., Adelaide, a grain binder; David Shearer & Co., Mannum, a stripper; Mr. A. Hannaford, Braund road, Prospect, a grain grader and a seed-picking machine.

In addition the Superphosphate Association of South Australia has agreed to give about 17 tons of fertilizers.

"These gifts are of great value, and are particularly acceptable at the present time, when such a large proportion of the income of the Institute must necessarily be expended on equipment, the provision of scientific laboratories, and in other capital items, and will make available funds which are urgently required for farm and other improvements," said Professor Richardson.

The Council resolved to accept the donations, and in forwarding its grateful thanks for them, to express its appreciation of the practical interest shown in the work of the Institute.

News 28/2/25

Dr. H. Simpson Newland, C.B.E., D.S.O., who was yesterday appointed president of the Royal Society of St. George, has been vice-president of that body for two years and a member for five years. Dr. Newland saw service with the Australian Army Medical Corps in Lemnos, Gallipoli, France, and England. He is a member of the council of the South Australian branch of the British Medical Association, and was formerly its president. He is an honorary surgeon of the Adelaide Hospital and of the Adelaide Children's Hospital, and a lecturer in clinical and operative surgery at the Adelaide University. Dr. Newland's family has taken a prominent part in South Australian public and patriotic life. His father is Mr. Simpson Newland, C.M.G., the author

UNIVERSITY SPORT.

CONTESTS WITH DOMINION STUDENTS.

LONDON, February 25.

An interesting proposal will be considered in March at Nottingham, when representatives of the Oxford, London, Edinburgh, and Bristol Universities and the President and secretary of the Inter-Varsity Athletic Board will endeavour to form an organization to control and arrange matches in all sports between the universities of the United Kingdom and teams representing dominion students. It is proposed to hold triangular athletic contests next term between universities, the Achilles Club, and the dominions, followed by cricket, tennis, and football matches. J. Porritt (New Zealand) and I. Shell (Victoria) will represent Oxford.

Reg 27/2/25.

His Excellency the Governor, accompanied by Mr. H. Corbin, and attended by Capt. Hambleton, paid a visit to the Government forest reserve at Kuitpo on Thursday afternoon.
