THE EDUCATION PROBLEM

Value of Independent Study

Views of Dr. Rendall.

"Independent study in boyhood develops a faculty for study in manhood." Dr. M. J. Rendall said in a recent address at the University of Manchester College, England, where he is the principal. Dr. Rendall emphasized the importance of independent study, and he cited examples of famous scholars who had benefited from it.

In his second term as president of the Rhodes Trustees, Dr. Rendall has been a frequent visitor to England. He has been impressed by the number of students from Rhodes who have come to study in Oxford and Cambridge. He believes that this is due to the high quality of education in these universities.

The Rhodes Trustees are considering ways to increase the number of students from Rhodes who come to study in the United States. They are also exploring the possibility of establishing a Rhodes college in the United States.

Rhodes Scholars

ADMISSION OF WOMEN

Outside Terms of Trust

Under the terms of the Rhodes Scholarship Trust, women are not eligible for the scholarship. However, Dr. M. J. Rendall has stated that he does not believe that gender should be a factor in determining who receives the scholarship.

Dr. Rendall has been a strong advocate for the education of women, and he has been a vocal critic of the gender-based restrictions in the Rhodes Scholarship Trust. He believes that women should be able to receive the same educational opportunities as men.

Dr. Rendall is a strong believer in the importance of education for all people, regardless of gender, race, or social class. He has been a vocal advocate for the expansion of educational opportunities in his home country and around the world.
