Agricultural Advancement.

Movements by the Government.

The House of Assembly on Wednesday Mr. Roberton directed attention to the present unsatisfactory condition of the state of wheat, meat and railway rates. Half points and three-quarters of a point were charged for wheat, and meat, at railway stations. TheHon. Mr. McCulloch moved a standing committee to report on the subject. The Hon. Mr. McCulloch said that the present unsatisfactory condition of the wheat was due to the fact that the wheat advances were not high enough to encourage the establishment of farms. The Hon. Mr. McLean said that the Government had proposed to establish a standing committee to keep the wheat market in order.

Research Suggestions.

Mr. McIntosh, the chairman of the Railway Standing Committee, and Mr. Baillie, the chairman of the Railway Board, said that the Government had proposed to establish a standing committee to investigate the subject of wheat, meat and railway rates. The Hon. Mr. McCulloch said that he had proposed to the Government that a standing committee be appointed to investigate the subject.

The Minister of Agriculture (Mr. McLean) said that the Government had considered the matter and was of the opinion that a standing committee should be appointed to investigate the subject.

No. 19.

Dr. A. E. H. E. B. (Director of the Waite Agricultural Research Institute) in a recent lecture to the officers of the Institute on Tuesday evening. He dealt with several points of interest relating to the subject of agriculture and industry in the State. Dr. Blackwood said that the importance of the subject was such that the whole of Australia should be united in the work of making the best use of the lands of the state. He said that the Government was making a great deal of progress in the direction of securing the best use of the lands of the state.

The agricultural and pastoral industries of South Australia were at present in a state of great depression. The Hon. Mr. McLean said that the Government had proposed to establish a standing committee to investigate the subject of agriculture and industry in the State.

Sources of National Revenue.

In 1925, the total amount of revenue derived from the sale of land in South Australia was £2,022,300. The Hon. Mr. McCulloch said that this was a great deal of revenue and that the Government should be encouraged to make use of it.

The Minister of Agriculture (Mr. McLean) said that the Government had proposed to establish a standing committee to investigate the subject of the revenue derived from the sale of land in South Australia.

Distribution of Sheep.

The map showing the distribution of the sheep in Australia was carefully examined by the Hon. Mr. McLean. The distribution of sheep in South Australia was in a state of great depression. The Hon. Mr. McCulloch said that the Government should be encouraged to make use of the revenue derived from the sale of land in South Australia.

The Minister of Agriculture (Mr. McLean) said that the Government had proposed to establish a standing committee to investigate the subject of the revenue derived from the sale of land in South Australia.

Distribution of Cattle.

Approximately 20,000 cattle in South Australia were in a state of great depression. The Hon. Mr. McCulloch said that the Government should be encouraged to make use of the revenue derived from the sale of land in South Australia.

The Minister of Agriculture (Mr. McLean) said that the Government had proposed to establish a standing committee to investigate the subject of the revenue derived from the sale of land in South Australia.
