NEW ZEALAND FORESTS.

SIR DOUGLAS MASON’S INVESTIGATIONS.

WELLINGTON, Thursday.

Sir Douglas Mason, New Zealand’s well-known scientist and explorer, of Auckland, who is about to undertake a reforestation expedition here, has been granted a leave of absence by the Auckland University College, as he has not been in the country long enough to complete his investigations.

He has already completed a short journey from Auckland to the Goldfields of New South Wales, and has been in the field among the forests of the south for some time.

Sir Douglas has been working in the field among the forests of the south, and has been in the field among the forests of the south for some time.

He has also been working in the field among the forests of the south, and has been in the field among the forests of the south for some time.
