NEW TEACHERS’ COLLEGE.

FOUNDATION STONE LAID.

WORK TO BE COMPLETED IN 12 MONTHS.

The new teachers' college, which is being constructed at Kistlers avenue, will be completed in about 12 months' time, and will be one of the largest and most modern of its kind in the state.

The building will be constructed of the latest materials and will be equipped with the most modern facilities. The college will provide education for teachers of all grades, from primary to secondary.

The building will be equipped with a library, a classroom, a laboratory, and a gymnasium. The library will be well-stocked with the latest educational resources. The classroom will be equipped with modern teaching aids, and the laboratory will be equipped with the latest scientific equipment.

The gymnasium will be equipped with the latest sports facilities, providing students with the opportunity to engage in a variety of physical activities. The college will also provide a state-of-the-art computer lab, where students can learn and develop their digital skills.

The building will be designed to be energy-efficient, with solar panels and other sustainable features. The college will also have a focus on sustainability, with a commitment to reduce its carbon footprint.

The college will provide education for teachers of all grades, from primary to secondary. The college will also offer professional development opportunities for current teachers.
