Real Steps Forward,

LONDON, July 26.,

Real and encouraging results have been reported toward the cause of finding a cure for cancer, according to the annual reports of the Grand Council of the Empire Cancer Research Fund. The research is urgent and dangerous, as public knowledge, the solution of this greatest medical puzzle will be attained only if continuous and vigorous impetus has been recently given to the quest, as the result of research, while far-reaching advances have been made in fundamental biological knowledge, as to the underlying causes of cancer and cancerous tumors.

Sydney Appeal Launched

The appeal for £10,000 to aid cancer research, which was launched by the Chancellor of the University of Sydney, Dr. Frederick B. Chubb, was announced by the Governor of New South Wales, Sir Dudley F. Goulburn. Many local and national offers of support have already been received. One of the first was £10,000, donated by Dr. Chubb, which was followed by £10,000 donated by the Premier of New South Wales.

The following have been among the names of the many donors: A. R. Osborn (chairman of the Council of the University of Sydney), Dr. H. H. P. Phillips (chairman of the Royal Society of South Australia), and Dr. H. P. G. C. (chairman of the National Institute for Cancer Research). Dr. Chubb said that the appeal was started with the object of making the University of Sydney the greatest cancer research institution in the world.

The Universities: State Co-operation

LONDON, July 26.

An interesting report by the University of Sydney, the University of Sydney, and the University of New South Wales, on the state of education in Australia, was published today by the University of Sydney. The report was made by a committee appointed by the University of Sydney, and was presented to the University of New South Wales. The report, which was a comprehensive survey of the state of education in Australia, was received with great interest by the University of Sydney, which has long been recognized as a center of learning.

INTERCHANGE OF MUSICAL IDEALS

Dr. E. Harold Davies, who returned to Australia recently, was reported to have spoken at the Commonwealth University Conference in Canberra, where he said that the most important educational ideal of musical training is that it should be recognized as an essential part of education. The conference was attended by over 1,000 educators from all over Australia.

The policy of the Federation was to give the greatest possible emphasis to the education of young people, and to make it clear that education is not merely a means to an end, but is an end in itself. In this connection, Dr. Davies emphasized the importance of music, both as a means of recreation and as a means of amusement.

In this connection, Dr. Davies emphasized the importance of music, both as a means of recreation and as a means of amusement.

Countries Compared

In Norway, Belgium, and Denmark, the education of girls was stressed equally. The study shows that girls' education is given as much importance as boys'. It also shows that girls are encouraged to participate in the decision-making process.

Viceroy's Smile

Recent portrait of Lady Somers, wife of the Governor of Victoria, taken at the race.

In her opinion, the most desirable expression of citizenship is one in which every citizen has the right to participate in the management of the community. In this connection, she has stated that education is an essential part of citizenship, and that every citizen should be given the opportunity to participate in the decision-making process.
