Prof. Bhai Balmukand,
Agricultural College,
Lyallpur,
Punjab,
India.

Dear Balmukand:

Many thanks for your letter and kind wishes. I hope all your projects will go ahead well in the new year. I am especially glad that the enquiry as to rural birth rates is taking shape, as sociological questions have, I think, been too little studied in India, in contrast to purely administrative and political questions. I shall be particularly interested to hear how the results turn out.

Yours sincerely,
