Dear Balmukand,

I have heard from Keen that he is thinking of offering you a post at Pusa, though not the head of the department. I do not know the details, but as I read it it looks promising. However, you may have heard <sup>more</sup> by now.

I am glad to hear that there is some prospect of the population enquiry being taken up. The question will certainly be of very widespread interest if satisfactory data can be obtained.

With best wishes for your family, and professional prospects.

Yours sincerely,
