Dear Dr. Fisher,

Enclosed you will find some comments I have made on proposals for naming human genes made by Snyder and by Wiener. If you have any remarks to make about them, it might be a good idea to send a carbon to Dr. Lawrence H. Snyder, Dept. of Zoology and Entomology, Ohio State University, Columbus 10, Ohio, who is chairman of the U. S. Committee on Nomenclature for Human Genes.

Sincerely,

William C. Boyd
