Lucca
My dear Luigi,

Thank for your letter. It will be delightful to have you in this country again, but I wonder if you could not manage a short visit before the Copenhagen meeting rather than after it. By early April I should usually be away sampling primroses though of course, this should not prevent your visiting the Department.

I fancy Eric Heaton is being married Easter Monday so that his honeymoon also will be in early April.

With kind regards to Mrs Cavalli and the family,

Yours sincerely,
