May 15-31
Cripps's Corner,
Forest Row,
Sussex.

Dear Fisher,

Hastily give me briefly your comments on enclosed, especially on pages 4 and 5.

Will the scientific world say it is sound? I have been asked to write a Special Preface for What is Engineering? for the American Congress. I am taking time by the seashore. One must put in some butter, one especially as some paragraphs will not be generally pleasant. They speak of free divorce now. Any
Thanks gratefully received
— though you know I am an obstinate man!

When do you go to Kirk D.S.?

Your always

I Darwin

I wanted to try to get
rather a new way of
putting, so as to make
people think.
