My dear Foster,

Thank you for letting me see the enclosed memorandum which as you say states that Afton case very ably. From our point of view Irish the fact that many covert classes are actually dying out could have been emphasised. For instance in Japan, S4 I should like...
To know which of the classes that mentioned are self-sustaining in a racial sense. In fact, the eugenic role might be more emphasized though very possibly from her point of view she did what was best.

Yours sincerely,

Leonard Darwin.
