Dear Professor Fisher,

I beg your pardon, but I think that there is some misunderstanding.

October 4th I answered your highly appreciated letter dated September 6 by making a statement about the two problems which I have in mind and by asking whether it would be convenient to you if I came to visit you soon after November 7th. So far I have no reply. Have I made a mistake, or has a letter gone astray, perhaps to China instead of to my address in Amsterdam which is printed at the head of this letter?

For my staying in London friends of mine have recommended me Kensington Gardens Hotel, Lancaster Gate, near Hyde Park and also New Mansion Private Hotels, 38-40 Lancaster Gate. Could you tell me which one would be preferable?

Thanking you very much in anticipation

sincerely yours

A. B. Drugleverer Fortuyn
