Dear Dr. Fisher,

It was very kind of you to send me the reprint of the Memoir you wrote about my husband. I appreciate your thoughtfulness in sending it to me, but far more I appreciate the Memoir itself. I cannot of course understand the mathematical part at all, but I do think you have put before your readers a very true & life-like picture of "Student". The letter from
which you quote, about Kai Lung, is most characteristic. I should like to get some more copies of the reprint to give to some of my husband's relations and friends, if you would very kindly ask your secretary to let me know the cost of the reprints and to whom I should apply for them.

Yours Sincerely,

Marjory Gossot
