Dear Professor Griffith,

Thank you for your letter of November 2nd, which reached me just after I had written to say that I have a berth on the Queen Mary and expect to arrive on January 10th. It is very good that this is just the day which you suggest in your letter.

I expect it will be possible for me to make during term a
few trips into the States, as I am anxious to work off any visits to that country during term rather than let them prolong beyond April 10th or 15th; my visit to North America:

Yours sincerely,
