Paris 11th of Feb. 1955

Dear Professor Fisher,

This is a reply to your secretary's letter.

Of course I am not responsible for making a French translation of your book: "The Theory of Inbreeding". I would not even dream of doing so without asking first for your agreement.

On the other hand, I was not aware someone had done it. I am prepared to make an enquiring effort but would need some precision: has it been published as a book or as a paper in a Journal, and in which?

Yours very respectfully,

H. Heslot
Chef de Travaux de Génétique
