My dear Hoblyn,

Pondering on my garden during a stretch of convalescence I have come to the conclusion that I want to take your advice and install a cord of small apple trees. The question is can you tell me whether a nursery man who will supply a good variety of scions on a really reliable dwarfing stock. As you know my garden is like an African forest already and I don't want to do anything to make it more overgrown than it is.

If you know one just send me a good address on a postcard.

Yours sincerely,

Mrs. R. A. Fisher

I am writing this for my husband who is more or less laid up still. I do hope you yourself and Mrs Hoblyn are well. Yours R.E.T.
