Professor R. A. Fisher,
Galton Laboratory,
University College,
London, W.C.I.

Dear Dr. Fisher,

I am mailing to you to-day a somewhat lengthy manuscript giving an account of results obtained in a study of the influence of weather conditions on wheat yield in certain districts of western Canada.

I thought this might make a suitable thesis for the London Ph.D., but before putting it in would like to get your opinion as to its merit. If you can find the time to look it over, and let me know what you think of it, this will be greatly appreciated.

Yours sincerely,

J. W. Hopkins.
