My dear Fisher,

I must write to thank you for the support you have been giving to me in this stultifying 300 business. However, I am delighted at this, or at least getting back here, that it has been transformed from a more or less personal issue to one of much more principle, but one which holds out possibilities of far-reaching reform of the society. It is not that we have an unpleasant fight, but I feel we have a good chance of winning it — if so, it is going to be grand to have your help & support in making the Z.S.E. more scientific & also more democratic.

It was also a relief to find that he
Walter was out of my hands in time of an excellent committee — also all of course kept you posted a great move.

Had an interesting last time in USA.

From there
