Dear Professor,

I understand from the kindness that you and my associates for discharged them on behalf in this.

I am going away tomorrow, Friday, for two weeks, I hope that I shall be able to answer your letter in my return.

I am afraid I forget to answer one question, in your letter about "ser-volt", viz. what about experiments which might throw some evidence of general electricity. I do not know of any experiments having been done with "the-volt" though dogmatically this real experiments concerning different species alluded to previous worked. He, of course, finds evidence
Of annual election between yous, it seems, it is believed, if election within miranda.

I am having notice sent out for a G.S. Committee meeting at 40 pm on April 16th.

Yours sincerely,

[Signature]
