February 21, 1940

Dear Fraser Roberts,

Many thanks for your letter. I expect the Army data explains the large number for Bristol and its area. The army material itself may be of persons of rather wide-spread origin in these islands, but it will be extremely interesting if we can get them. Many thanks for your offer to give help, if possible, in the matter of compiling. As you know, with numbers exceeding 1000 or so, it really does need someone with experience and a critical mind if howlers are to be avoided. I am sending your letter on to Taylor for his information, as I hear he has started tackling someone in Bristol.

Yours sincerely,
