November 10, 1937

Dear Dr. Russ,

I should be glad to be of any help to you in the interpretation of your results, but I ought to say that I have no special knowledge of the kind of work you have been doing, and I am likely to be excessively busy during the few weeks that remain before I go to India. Perhaps if there is any special point you would like to ask me about, it would be well to do so rather than to send me the whole paper.

Yours sincerely,
