22nd June, 1956.

My dear Ruth,

Here is the picture from Antiquity, which I hope you may like as much as I do. The feet are hidden for I suppose they may have been clumsy, though I suspect they were in fact perfected rather early in hominid evolution. Judging from the picture he is making a terrifying noise. I do not suppose he could cope with articulate speech.

Thank you both so much for your kindness in making my attendance at the Soiree reasonably possible and letting me meet your little girls again,

Sincerely yours,

Enc.
