

22nd. September 1950.

My dear Tippett,

Thanks for your note. It was really nice of you to think of congratulating me on what really Shewhart and Wileys have done. I am still rather aggrieved that they did not tell me that Gini had refused right of republication of paper number one, for which I had designated an old paper from Metron. Had I known that Gini had made any difficulty I would, of course, have rewritten the introduction so as to do without the text.

Yours sincerely,
