

*Letter no. 10/2/48.*

3rd. February 1948.

Dear von Verschuer,

Many thanks for your letter. I am so glad to hear that the tea was a success with your wife and yourself. I am sending now another small gift of the same kind and some more offprints, including duplicates of those I sent before.

It does not seem to be at all easy to arrange a visit to this country. There has evidently been a good deal of denigration, which I do not believe has any substantial basis.

It is good to hear that you are both upheld by faith and courage, two virtues which I am inclined to equate, and for my own part, while I believe we must expect little good from the world, yet we have a job to do good to it, while power yet remains.

Yours sincerely,
