

March 3, 1938

Dear Wishart,

Thanks for your letter. About "Student's" papers, I can certainly make his contribution to the Annals available, if a republication is decided on. Will you please, though, send me the bibliography, which you have doubtless already prepared, as I should like to publish one with his obituary in the Annals.

As to the B.A. discussion, will you please let me have the dates, as you only give the days of the week, and some of my people have their Summer arrangements to fit in. I think that C.C. Craig, W.J. Youden, W.L. Stevens and H.W. Norton should all be able to put up good papers.

Yours sincerely,
