February 4, 1937

Dear Youden,

I am very glad to have your letter of January 23rd and the paper on Confounding. You do not mention it, but I hope this is offered, with amendments which you can possibly insert in the proof, for publication in the *Annals*. I have not yet read it, as I am writing at once in respect of your Rockefeller application.

First I should like to say that you would be very welcome indeed here as a Voluntary Worker in the Department, and, with your past experience and present interests, you are exactly the sort of man most likely to take full advantage of the conditions here.

Next, the total fees covering registration and access to all lecture courses in this Department, use of calculating machines, etc., fall inside £25. (Composition Fee £17 17 0, Calculator Fee £4 14 6d, Entrance Registration Fee £2 2 0.)

Finally I ought to say that my own movements are at present uncertain, since proposals have been made, though not yet discussed in detail, which would involve my coming to the United States. Of course the Rockefeller Foundation will be informed without delay if any such decision is made.
My present uncertainty does, however, I am afraid, entail the inconvenient possibility of your own plans being later disturbed.

One way or another, however, I certainly hope that we may be able to spend some time working together.

Yours sincerely,
