Apparently cross cousin marriage, but Muhmun and WILURU had different mothers. For WILURU, see next page.

WONGABULU never claimed Minyunu, although she was his bilyunu. He never gave her father any present and so could not claim her. He never gave her or them any food, nor did he visit her father when her mother died. Minyunu was found by Kaligurdaji at Wijiman. She was a Murdingurongu or "spirit" there and "moberned" by Kaligurdaji.
