

Wales," he said, "has set a fine example in that connection, and it is a recent matter which was suggested by the Government... £125,000 was made for the establishing of a cancer research fund."

THE DISCOVERY OF THE MATTER.

LECTURE BY PROFESSOR HICKS.

The second series of University extension lectures began on Tuesday... The lecturer dealt with his subject from popular and historical viewpoints... He described the earliest discovery of matter in 1200 B.C. when copper was discovered and worked in.

to the point where new knowledge began. The periodic table of the elements... He said that the first step towards finding the solution had been taken by Soddy.

ROSEWORTHY COLLEGE. CANCER RESEARCH. SEEKING THE CAUSE.

LONDON, July 11. Belief was expressed at a meeting of the Empire Cancer Congress... Referring to the appointment of Sir John Goodwin as Governor of Queensland, the Duke of York said he was glad to see that the Government was so anxious for the cause of cancer research.

SOUTH AUSTRALIA LAGGING BEHIND.

"In cancer research South Australia is lagging behind the other States," said Sir Neville Connors... He said that Queensland had set an example in collecting £250,000 for research work, and he understood that Queensland was an early mover in this important question.

"In this State," said the Minister, "you have a University in which a certain amount of research work has been done... He said that Queensland had set an example in collecting £250,000 for research work, and he understood that Queensland was an early mover in this important question.

worthy methods in various departments at Dookie, and had come to the conclusion that the instruction provided at the college... He said that Queensland had set an example in collecting £250,000 for research work, and he understood that Queensland was an early mover in this important question.

ADU 12-7-27 AN EXECUTOR'S DUTY.

LECTURE TO COMMERCE STUDENTS. At a meeting of the Commerce Students Association of the University of Adelaide on Monday night... The lecturer who took for his subject "The Duties and Liabilities of Executors and Trustees" impressed upon members the importance of making themselves acquainted with the terms of the trust, and pointed out that those up to £2,000 were protected against claims by creditors so long as such policies had been in force for two years.

ALARMING PREVALENCE.

"Could you give us an idea of the extent of the increase in the prevalence of cancer?" inquired the reporter... "Yes," replied the Minister, "Take women between the ages of 45 and 69... In Australia the rate is 100 per 1,000,000, while in the United States it is 150 per 1,000,000."

PREVENTION THE IDEAL.

"What would you say was the greatest result, so far as the medical profession is concerned, of the experience of research during the war?" was the next question... "The Minister said it was unquestionably the discovery of the importance of the carrying on of campaigns which formerly would have been discounted."

SEEKING CURS OF THE MALADY.

EMPIRE CAMPAIGN IN PROGRESS.

LONDON, July 11. The belief was expressed at a meeting in connection with the Empire Cancer Campaign, that the discovery of the cause of cancer is not long delayed... Sir Thomas Murray, of the University of London, said there was a more hopeful tendency in recent research in the Empire... The Duke of York, who was re-elected President, wrote expressing the heartfelt hope that important discoveries would speedily be made...

ADU 13-7-27 ROSEWORTHY COLLEGE.

NEW PRINCIPAL ARRIVES. IMPORTANCE OF FARMERS' SCHOOLS. Mr. W. R. Birks, who will succeed Mr. W. J. Colebatch as principal of Roseworthy Agricultural College, arrived in Adelaide on Monday from Melbourne, and will take up his duties on Wednesday the 15th of the week. Mr. Birks is himself a Roseworthy graduate, and lives and has a half year's duty after service in the agricultural departments of the Government of New South Wales, he was appointed principal of Dookie Agricultural College, Victoria.

Discussing his experiences in other States with a representative of "The Roseworthy" Mr. Birks remarked that Australia was really a land over Australia as being a particularly sound institution, as well as the oldest agricultural college. He himself had instructed Roseworthy methods in various departments at Dookie, and had come to the conclusion that the instruction provided at the college... He said that Queensland had set an example in collecting £250,000 for research work, and he understood that Queensland was an early mover in this important question.
